following a pharmaceutical company’s inflation of a disease fighting drug by 5500 in August, Congress is now looking into why drug companies are charging ridiculous prices for rare medicines.

For example, rely on the fear that health and social costs would increase if the stigma of substance use is removed.

The British reacted violently, killing twenty-five people in what came to be called the Nairobi Massacre.

But the people in charge are always people who want to be in charge; I have no burning desire to order people around.

At 24 weeks, there was slight improvement, compared with baseline, in ABPI in patients receiving cilostazol (difference, 0.04) or pentoxifylline (0.05) but not in those receiving placebo.

Acting like flood gates, muscular blood vessels called arterioles control the flow of blood into the penis.
